TRUSTED BY DOG LOVERS EVERYWHERE

CHAMPION PETFOODS IS AN AWARD-WINNING CANADIAN PET FOOD MAKER WITH A REPUTATION OF TRUST THAT SPANS MORE THAN A QUARTER CENTURY.

OUR MISSION IS CLEAR AND STRONG:

TO BE TRUSTED BY PET LOVERS EVERYWHERE.

Since our humble beginnings in 1985 in the small town of Barrhead, Alberta, we've been making Biologically Appropriate dog and cat foods for Pet Lovers who expect the highest quality. Made with an unmatched variety of ranch-raised meats, cage-free poultry, wild-caught fish and sun-ripened fruits, vegetables and botanicals, we use Fresh Regional Ingredients from close to home, grown and raised by people we know and trust.

Frank Burdzy, President & CEO
CHAMPION PETFOODS LP

BIOLOGICALLY APPROPRIATE
ACANA mirrors the richness, freshness and variety of WholePrey meats that dogs are evolved to eat.

FRESH REGIONAL INGREDIENTS
We focus on local ingredients that are raised by people we know and trust, and delivered fresh or raw each day.

NEVER OUTSOURCED
We don't make foods for other companies and we don't allow our foods to be made by anyone else.

BIOLOGICALLY APPROPRIATE

A new class

MEAT-BASED FOODS THAT MIRROR YOUR DOG'S EVOLUTIONARY DIET

The gray wolf is the ancestor and closest relative of all domestic dogs. And while years of breeding has produced hundreds of 'different looking wolves', the internal workings of wolves and dogs remain unchanged.

In fact, the eating anatomy of modern dogs is the same as their wolf cousins, so it's no surprise that their food requirements remain the same too.

OUR BIOLOGICALLY APPROPRIATE PRINCIPLES ARE SIMPLE: MIRROR THE QUANTITY, FRESHNESS AND VARIETY OF MEATS THAT NATURE EVOLVED DOGS TO EAT.

ACANA's richly nourishing meat inclusions mirror your dog's evolutionary diet, excluding high-glycemic carbohydrates, vegetable proteins, synthetic additives and anything else that nature didn't intend your dog to eat.

BIOLOGICALLY APPROPRIATE

ACANA DOG FOODS FOLLOW

NATURE'S RULES

Your dog has specific dietary needs that Mother Nature cultivated. ACANA mirrors the rich, varied inclusions of fresh whole meats that dogs would encounter in their natural environment and are evolved to eat. These five rules reflect our Biologically Appropriate commitment.

1 RICH IN MEAT. RICH IN PROTEIN.

Your dog is a carnivore, adapted for a diet rich in meat and protein. ACANA is loaded with UP TO 75% MEAT—three times as much as conventional dog foods — and is entirely free of plant protein ingredients.

2 HIGH FRESH MEAT INCLUSIONS

Up to half of the meats in ACANA are FRESH or RAW, supplying essential nutrients in their most nourishing form and providing the natural flavours and goodness that dogs instinctively crave.

3 A VARIETY OF FRESH MEATS

In nature, dogs benefit from an assortment of meats, so ACANA features an unmatched variety of free-run poultry and nest-laid eggs, ranch-raised meats and wild-caught fish delivered fresh or raw from our region.

4 WHOLEPREY MEAT RATIOS

Nature matched the nutrients in whole prey animals to perfectly meet your dog's needs. That's why ACANA features WholePrey ratios of meat, organs and cartilage that supply essential nutrients naturally.

5 CARBOHYDRATE-LIMITED

A dog's natural diet contains very few carbohydrates, so ACANA replaces fast carbohydrates such as corn, rice, tapioca and potato with healthy, low-glycemic fruits and vegetables.

BIOLOGICALLY
APPROPRIATE

Rule 1

RICH IN MEAT RICH IN PROTEIN

ACANA IS MADE WITH 50% TO 75%
MEAT INGREDIENTS

COMPANION DOGS ARE NOT ONLY CAPABLE OF
EATING THE FOODS OF THEIR ANCESTORS, BUT
ACTUALLY REQUIRE IT FOR PEAK HEALTH.

Just like their wild cousins, domestic dogs are
equipped with sharp teeth, a short digestive
tract and a body evolved to metabolize protein
and fat from meat.

With high meat inclusions (up to 75%), over
95% of ACANA's protein is derived from animal
sources, nourishing your dog according to his
evolutionary needs.

BIOLOGICALLY
APPROPRIATE

Rule 2

UNMATCHED FRESH MEAT INCLUSIONS

UP TO HALF OF MEAT INGREDIENTS
ARE FRESH OR RAW

FRESH MEATS MIRROR THE NATURAL DIET,
SUPPLYING NUTRIENTS IN THEIR FRESHEST,
MOST NATURAL FORM.

That's why up to 50% of the meats, fish, poultry
and eggs that go into ACANA are fresh or raw,
and loaded with goodness and taste.

To preserve the integrity of our fresh
ingredients, we prepare ACANA at low
temperatures (90C/195F).

PROTEIN FROM MEAT NOT PLANTS

just as nature intended

KALSIN, ECSTATIC AND PURPOSE-FILLED, SOARING TO BLISS. KODIAK, ALASKA.

LEO OF KELTIC SEAFOODS IN PORT HARDY, BRITISH COLUMBIA. TRUSTED SUPPLIER OF FRESH WILD-CAUGHT FLOUNDER.

UP TO 50% FRESH *or* RAW

UP TO HALF OF ACANA'S MEATS ARE FRESH OR RAW, PROVIDING THE
FLAVOURS AND GOODNESS THAT DOGS INSTINCTIVELY CRAVE.

Refrigeration is the only means of preservation for our fresh meats, and our
raw meats are flash-frozen at their peak to lock in their natural goodness.

All meat ingredients are from animals deemed fit for human consumption,
a rarity among North American pet food makers.

BERN AND KIRSTIN OF SPRING CREEK RANCH IN VEGREVILLE, ALBERTA. TRUSTED SUPPLIERS OF FRESH ALBERTA BEEF.

BIOLOGICALLY
APPROPRIATE

Rule 3

AN ABUNDANT VARIETY OF FRESH MEATS

ACANA FEATURES 3-5* FRESH MEATS, POULTRY OR FISH

CONSIDER THE VARIATION IN A NATURAL DIET: EGGS TODAY, A DUCK OR GOOSE TOMORROW AND
FISH THE NEXT. A RICH VARIETY OF FRESH MEATS IS A KEY PRINCIPLE IN OUR BIOLOGICALLY
APPROPRIATE PHILOSOPHY.

This variety is lost in conventional pet foods, which typically feature a single animal ingredient, such as
chicken or lamb, that's highly processed and seldom fresh.

ACANA features a variety of fresh meats from local ranch-raised red meats, free-run poultry and
wild-caught fish, providing a nourishing diversity of proteins and fats to promote peak health.

HERITAGE RED MEATS

Raised naturally on local farms
in the heart of Canada's ranching
country, beef, bison, lamb and
pork are delivered fresh or raw
each day, so they're bursting
with goodness and taste.

THE EATING ANATOMY OF DOGS & WOLVES REMAINS THE SAME

ODIN PONDERING THE BEAUTY OF SNOW. SILVER LAKE, MICHIGAN.

BIOLOGICALLY APPROPRIATE Rule 4

WHOLEPREY MEAT RATIOS

WHOLEPREY DIET
MEAT | ORGANS | CARTILAGE

MEAT, ORGANS AND CARTILAGE IN WHOLEPREY RATIOS

IN HER INFINITE WISDOM, MOTHER NATURE MATCHED THE NUTRIENTS IN WHOLE FISH, FOWL AND GAME TO PERFECTLY MEET THE DIETARY NEEDS OF DOGS.

In nature, dogs and wolves derive their nutritional needs by consuming whole prey animals. Muscle meat provides protein and fat; organs such as liver and tripe supply vitamins and minerals; bones and cartilage provide calcium and phosphorus.

ACANA WholePrey foods incorporate meat, organs and cartilage in ratios that mirror Mother Nature, delivering nutrients naturally, thus dramatically reducing the need to add synthetic vitamins or amino-acid supplements to our foods.

VIRTUALLY ALL OF THE NUTRIENTS IN ACANA ARE NATURAL AND NOT SYNTHETIC.

SUPERFOOD FOR DOGS

COMPARED TO MUSCLE MEAT, ORGAN MEATS ARE DENSELY PACKED WITH VIRTUALLY EVERY NUTRIENT YOUR DOG NEEDS, INCLUDING ESSENTIAL AMINO ACIDS, FATTY ACIDS, VITAMINS AND MINERALS.

Organ meats such as kidney, liver and tripe are loaded with heavy doses of B vitamins, minerals like phosphorus, iron, copper, magnesium and iodine, and important fat-soluble vitamins A, D, E and K — all of which nourish your dog the natural way.

8 STRIDER LOOKING FOR HIS NEXT ADVENTURE. KIMBERLEY, ONTARIO.

BIOLOGICALLY APPROPRIATE Rule 5

NOBBY OF SUDO FARMS IN LETHBRIDGE, ALBERTA. TRUSTED SUPPLIER OF FRESH WHOLE PUMPKIN AND SQUASH.

CARBOHYDRATE- AND GLYCEMIC-LIMITED

FREE OF GRAINS, POTATO, TAPIOCA AND STARCH INGREDIENTS, ACANA LIMITS CARBOHYDRATES TO 30% AND GLYCEMIC LOAD TO 3.

CARBOHYDRATES ARE RECOGNIZED AS A LEADING CAUSE OF OBESITY AND DIABETES - YET CONVENTIONAL DOG FOODS OFTEN EXCEED 50% CARBOHYDRATES.

Even worse, conventional dog foods typically feature fast carbohydrates such as rice, potato and tapioca; starches that digest quickly, causing blood glucose to spike resulting in increased fat storage — factors associated with obesity and diabetes.

That's why Biologically Appropriate ACANA features low-glycemic vegetables and fruits, such as whole pumpkin and butternut squash, that enter the blood stream slowly, promoting stable blood sugar levels and reducing the potential for fat storage.

CARBOHYDRATES AND GLYCEMIC LOAD

Glycemic Load (GL) is the most accurate measure of how food impacts blood sugar, and is determined by multiplying the glycemic index value (GI) of carbohydrate by the amount of carbohydrate in the food.

Glycemic Load = Glycemic Index × Grams of Carbohydrate ÷ 100.

A Glycemic Load over 20 is high, 11-19 is medium, and 10 or less is low. All ACANA foods are GL 3 or less, helping to promote lean muscle mass and reduced body fat.

EVOLVED AS CARNIVORES, DOGS DO NOT REQUIRE CARBOHYDRATES IN THEIR DIET.

CARBOHYDRATES ARE EMPTY CALORIES THAT PROVIDE LITTLE NUTRITIONAL VALUE.

The NATURAL DIET CONTAINS LITTLE IF ANY CARBOHYDRATES

9 FREYA FROLICKING ON THE BEACH. MAYNE ISLAND, BRITISH COLUMBIA.

CHOOSE

The right

ACANA FOR YOUR DOG

MODERN DOGS ARE BUILT LIKE THEIR ANCESTORS. WE BELIEVE THEY SHOULD EAT LIKE THEM TOO.

Made in our award-winning kitchens with Canada's best ingredients, we've created four unique classes of ACANA foods, all formulated to our Biologically Appropriate standards to nourish your dog completely.

ACANA CLASSICS

Loaded with 50% meat, including fresh free-run chicken, turkey and eggs from prairie farms, red meats from local ranches, or wild-caught fish from Vancouver's Pacific waters, ACANA Classics are packed with goodness to nourish completely.

ACANA FOODS FOR DIET-SENSITIVE DOGS.

Limited ingredients shouldn't mean less meat — we make four richly nourishing single protein foods for diet-sensitive dogs.

Our Biologically Appropriate ACANA Singles are loaded with raw New Zealand lamb, fresh Ontario duck, fresh Alberta pork or fresh whole Vancouver Island pilchard — all in WholePrey ratios that supply nutrients naturally, eliminating the need for synthetic vitamins and amino-acids.

Featuring local fruits, vegetables and botanicals to promote digestive health, ACANA's low-glycemic carbohydrates promote healthy blood sugar levels and peak physical conditioning.

Read our ingredients and you'll be happy too.

ACANA SINGLES FEATURE

50% MEAT
1/2 FRESH OR RAW
SINGLE ANIMAL SOURCE
WHOLEPREY
PROTEIN-RICH
CARBOHYDRATE-LIMITED
FREEZE-DRY INFUSED

GRASS-FED LAMB

RAW GRASS-FED LAMB & OKANAGAN APPLES

GRASS-FED ON NEW ZEALAND RANCHES, OUR RAW LAMB ARRIVES IN RICHLY NOURISHING WHOLEPREY RATIOS OF MEAT, LIVER AND TRIPE THAT MIRROR THE NATURAL DIET, VIRTUALLY ELIMINATING THE NEED FOR SYNTHETIC ADDITIVES. GENEROUS INFUSIONS OF FREEZE-DRIED LIVER TEMPT FUSSY EATERS, WHILE FRESH APPLE, SQUASH AND PUMPKIN PROVIDE A RICH SOURCE OF SOLUBLE FIBER TO SETTLE SENSITIVE STOMACHS.

INGREDIENTS

Raw grass-fed lamb (18%), lamb meat meal (18%), whole green peas, whole red lentils, raw lamb liver (4%), lamb fat (4%), fresh red delicious apples (4%), whole garbanzo beans, whole green lentils, whole yellow peas, raw lamb tripe (2%), raw lamb kidney (2%), dried lamb cartilage (2%), lentil fiber, marine algae (1.2%) (pure and sustainable source of DHA and EPA), fresh whole butternut squash, fresh whole pumpkin, dried brown kelp, freeze-dried lamb liver (0.1%), salt, fresh whole cranberries, fresh whole blueberries, chicory root, turmeric root, milk thistle, burdock root, lavender, marshmallow root, rosehips.

Additives: Vitamin D3, E, Zinc, Copper.
Naturally preserved with Vitamin E.

YORKSHIRE PORK

FRESH HERITAGE PORK & BUTTERNUT SQUASH

340 G / 12 OZ
2 KG / 4.4 LB
6 KG / 13.2 LB
11.4 KG / 25 LB

RAISED ON ALBERTA PRAIRIE FARMS, OUR FRESH PORK ARRIVES IN RICHLY NOURISHING WHOLEPREY RATIOS OF MEAT, LIVER AND KIDNEY THAT MIRROR THE NATURAL DIET, VIRTUALLY ELIMINATING THE NEED FOR SYNTHETIC ADDITIVES. GENEROUS INFUSIONS OF FREEZE-DRIED LIVER TEMPT FUSSY EATERS, WHILE FRESH BUTTERNUT SQUASH AND PUMPKIN PROVIDE A RICH SOURCE OF SOLUBLE FIBER TO SETTLE SENSITIVE STOMACHS.

INGREDIENTS

Fresh yorkshire pork (16%), pork meat meal (16%), whole green peas, whole red lentils, fresh pork liver (6%), pork fat (6%), fresh pork kidney (4%), fresh whole butternut squash (4%), whole garbanzo beans, whole green lentils, whole yellow peas, dried pork cartilage (2%), lentil fiber, marine algae (1.2%) (pure and sustainable source of DHA and EPA), fresh whole pumpkin, dried brown kelp, freeze-dried pork liver (0.1%), salt, fresh whole cranberries, fresh whole blueberries, chicory root, turmeric root, milk thistle, burdock root, lavender flowers, marshmallow root, rosehips.

Additives: Vitamin D3, E, Zinc, Copper.
Naturally preserved with Vitamin E.

ANALYSIS:

Crude protein 37 %, Fat Content 43 %, Crude fiber 3 %, Moisture 5 %

CANADA'S VAST AND FERTILE LANDS, OUR SOURCE OF INSPIRATION AND FRESH REGIONAL INGREDIENTS.

The **HEALTHIEST FOODS ARE MADE AT HOME**

We're as passionate about our foods as we are about our dogs. That's why we've been preparing ACANA in our award-winning kitchens for over a quarter century.

In fact, we prepare all ACANA foods and treats ourselves, with fresh ingredients from local, trusted farmers, ranches and fishermen. And we perform every detail of food preparation, so you can have peace-of-mind knowing where your food is made.

When you choose ACANA, rest assured your dog's food has been made with the same care and attention as a home-cooked meal. We wouldn't have it any other way. We believe you wouldn't either.

ACANA

OUR COMMITMENT TO PET LOVERS

ACANA foods are prepared to our award-winning, Biologically Appropriate standards by mirroring the meat-rich diet that all dogs are evolved to eat.

Made from unmatched fresh and regional meats, poultry and fish that are sustainably raised or wild-caught in our region, by people we know and trust, then delivered daily fresh or raw in WholePrey ratios to our award-winning kitchens, where we create our deliciously nutritious foods from start to finish.

It's peace-of-mind for you, and part of our commitment to keeping your cherished dog happy, healthy and strong.
